# AI Compliance Design

## Objective

Ensure the Zecpath AI hiring system is secure, privacy-compliant, auditable, and aligned with responsible AI practices.

## Compliance Principles

- Consent-based data processing
- Transparent AI decisions
- Auditability
- Secure storage
- Role-based access
- Data minimization

## Candidate Consent

Consent is required before:

- Resume processing
- Audio/video recording
- AI interview
- Report generation

Consent records include:

- Candidate ID
- Timestamp
- Consent status

## Data Retention Policy

| Data | Retention |
|---|---|
| Resume | 90 Days |
| Interview Transcript | 60 Days |
| Reports | 120 Days |
| Audit Logs | 180 Days |

Expired data is automatically deleted or anonymized.

## Compliance Checklist

- Candidate consent captured
- Secure APIs
- Encryption enabled

- Audit logs maintained
- Role-based access control
- Data retention enforced

## Benefits

- GDPR-style privacy support
- Transparent AI decisions
- Secure hiring workflow
- Easier compliance audits
