Day 67 – Final Demo Readiness

Objective

Confirm that the Zecpath AI Hiring System is ready for the final project demonstration.

Demo Readiness Checklist

- Presentation completed
- Demo script practiced
- Flow verified
- Sample data prepared
- AI modules tested
- ATS scoring verified
- Interview simulation verified
- Final report generated
- Q&A prepared

Presentation Timing

Section	Time
Introduction	2 Minutes
Problem Statement	3 Minutes
AI Solution	3 Minutes
Architecture	4 Minutes
Live Demo	10 Minutes
Q&A	3 Minutes

Total: 25 Minutes

Presentation Tips

- Speak clearly
- Explain one module at a time
- Avoid unnecessary technical terms
- Highlight business benefits
- Show confidence during the demo

Expected Questions

How does ATS work?

Explain semantic matching between resumes and job descriptions.

How are decisions made?

Multiple AI module scores are aggregated to generate the final hiring recommendation.

Is the system scalable?

Yes. The architecture supports microservices and horizontal scaling.

What makes Zecpath AI unique?

It automates the complete hiring workflow, including resume screening, interviews, behavioral analysis, and final decision-making.

Final Strengths

- End-to-end AI hiring platform
- Modular architecture
- Explainable AI
- Recruiter-friendly reports
- Production-ready workflow

Final Verdict

The Zecpath AI Hiring System is fully prepared for the final demonstration and is ready to be presented to evaluators and stakeholders.
