Day 70 – Internship Evaluation

Performance Summary

Area	Rating
Technical Skills	Excellent
System Design	Excellent
AI Knowledge	Excellent
Problem Solving	Excellent
Documentation	Excellent
Communication	Good

Key Achievements

- Built an End-to-End AI Hiring Platform
- Designed Modular AI Architecture
- Implemented ATS, Screening, Interview & Decision AI
- Created Monitoring & Security Framework
- Developed Production-Ready System
- Completed Complete Documentation

Project Outcome

- 70-Day Internship Successfully Completed
- Production-Ready AI System Delivered
- Complete Technical Documentation Submitted

Overall Evaluation

The internship project demonstrates strong software engineering, AI development, system architecture, and documentation skills with a fully functional recruitment platform.
