# Decision Tree Logic

## Objective

Provide adaptive interview questioning based on candidate response quality.

## Flow

START

↓

Ask Question

↓

Capture Answer

↓

Analyze Answer Quality

↓

| Condition | Action |
|---|---|
| Empty | Retry |
| Too Short | Ask Elaboration |
| Uncertain | Clarify |
| Basic | Ask Example |
| Good | Continue |

↓

Adapt Question Difficulty

↓

| Quality | Difficulty |
|---|---|
| Empty | Simplify |
| Too Short | Simplify |
| Basic | Example |
| Good + High Confidence | Advanced |

↓

Generate Follow-Up
