Feature Enhancement Report

Objective

Finalize the Zecpath AI system for production deployment by improving scoring consistency, output readability, usability, and system reliability.

Improvements

Scoring

- Consistency smoothing
- Stable decision thresholds
- Reduced score variance

Output

- Recruiter-friendly summaries
- Better strengths and weaknesses presentation
- Clear recommendations

Usability

- Reduced repetitive interview questions
- Faster processing
- Improved response flow

Error Handling

- Safe execution wrapper
- Standard API errors
- Stable outputs

Before vs After

Area	Before	After
Score	Raw	Smoothed
Report	Basic	Structured
Decision	Simple	Recruiter-friendly
Errors	Basic	Safe handling

Result

- Better recruiter experience
- Consistent outputs
- Production-ready pipeline
